

Virtual Office by VirtuWorks is your full-service IT package that includes essential software—like Office 365—critical protection, ultimate accessibility, the scalability of the cloud, and US-based IT pros to manage it all

## Virtual Office by VirtuWorks

### Empowering

Our IT pros manage all your IT needs; our solutions scale to your growth

### Protected

Enterprise-level data security and compliance for every industry; quick disaster recovery

### Familiar

Superior service with familiar Office applications from any device, anywhere

## Your business deserves your focus and attention on smart ways to engage—and protect—customers and employees.

That's why VirtuWorks offers Virtual Office, combining the service of our IT professionals with the latest cloud-based Microsoft products you use daily. With Virtual Office by VirtuWorks, you get Office 365 apps including Word, Excel, and PowerPoint, with service and support when you need it. Virtual Office helps you protect what matters, with the highest level of enterprise security for any kind of business information, including sensitive data that requires governmental compliance standards. We help you build for tomorrow by maximizing your technology investment, reducing short-term costs, and ensuring that your business stays competitive into the future.

# Why you should leave your IT needs to us

Features	How it can help your business
Access to your business-critical activities in the cloud, easily and securely	Keeps your systems up and running, no matter what. Cloud-based storage protects your business documents, email, and everything else, even if a natural disaster strikes.
Access to skilled US-based IT professionals while saving money on maintaining your own IT department	Virtual Office professionals are available whenever needed, for migration assistance, general support, and more.
Familiar, robust solutions you already know and trust, including Outlook, Word, Excel, PowerPoint, Publisher, OneNote, and more	Using business-standard productivity applications reduces orientation time for new hires and empowers your staff with the tools they need to complete tasks efficiently.
Cloud-based enterprise-level security	Patient, client, and other sensitive data and documents are protected to highest levels of enterprise compliance—with ongoing Microsoft protection against breaches.
Superior customer service, and a strong and trusted brand for more than two decades	VirtuWorks achieves nearly all five-star ratings on Google, Facebook, and Yelp. That means stellar customer service and support when you need it most.
One easy-to-use offering, based in the cloud	Virtual Office featuring Office 365 and our all-day every-day support allows your employees to connect and collaborate, securely, from anywhere.
Migration of your existing hardware and software into Virtual Office at no charge.	Save hundreds of dollars in labor cost; we handle the whole migration for you.
